COMPANY SECRETARY APPOINTMENT BRIEF JANUARY 2021

ACTION FOR STAMMERING CHILDREN
C/O THE MICHAEL PALIN CENTRE
13-15 PINE STREET
LONDON, EC1R OJG
CHARITY NUMBER: 801171
COMPANY NUMBER: 02328627

Dear Candidate,

Thank you for your interest in the role of Company Secretary at Action for Stammering Children (ASC), this is a great opportunity for the right candidate to join ASC having celebrated its 30th year and supporting almost 100,000 children.

Over 150,000 children in the UK stammer and suffer the frustration of being unable to say what they want to, when they want to. Added to this, they are often mimicked, teased and bullied. They may be anxious, isolated and helpless. Their parents also feel powerless to help and desperately worried about what the future will hold. ASC is the leading charity of its kind in the UK. It supports these children and their families across the UK by funding expert assessment, therapy and training at the Michael Palin Centre in London – opened by Michael 27 years ago. It also supports outdoor adventure residentials for children who stammer, which combine speech and language therapy group work with thrilling physical challenges. Our strategy is informed by a brilliant Youth Panel made up of young people who stammer, and our work is supported by an inspiring group of 'Stambassadors' – adults who stammer in successful careers. We are also an enthusiastic supporter of research into stammering and new therapeutic approaches.

Thanks to our work, the lives of children and their parents are transformed – they are empowered, resilient and able to fulfil their potential in all aspects of their life including at school, at home and socially. As such, the Charity really does have the power to change lives forever.

We are sad to be losing our Company Secretary, after 8 years of great service he has decided that it's time to step down. We are proud of our strong governance track record, and we are determined to maintain that track record into the future. This is a wonderful opportunity to join a great and inspiring team and one that makes a real and proven difference to the lives of many children and young people.

Throughout this pack you will learn more about our story, our work and our passion. You will also find out more about the role as well as the skills and the qualities we are looking for. If you feel you have the experience and commitment to be our next Company Secretary, we would very much like to hear from you.

Yours sincerely,

ABOUT ACTION FOR STAMMERING CHILDREN

Action for Stammering Children's (ASC) vision is a society where children and young people who stammer have the same opportunities and quality of life as their peers.

The Charity's mission is to ensure that every child and young person across the United Kingdom who stammers has access to effective services and support to help them meet the challenges created by their stammer.

The Charity commissions the delivery of specialist services that transform the lives of children and young people who stammer. We do this by working with the Michael Palin Centre for Stammering Children in London and by running residential courses in the North of England.

We are the charity which created and continues to support the Michael Palin Centre for Stammering Children in London. This internationally-recognised Centre runs the UK's largest specialist service exclusively dedicated to the assessment and treatment of children who stammer from across the UK. We also support projects aimed at boosting the confidence of young people who stammer and, through our inspirational Youth Panel, we make sure young people who stammer have a voice in the direction of our Charity.

Stammering is a severe communication disability which impairs social, emotional and educational development. Estimates suggest that 8% of children will stammer at some point and approximately 1% continue to stammer into adulthood. Stammering is more common in boys than in girls. It is characterised by repetitions, prolongations and blocking of sounds, and can be accompanied by feelings of isolation, frustration and embarrassment.

Stammering crosses all races, cultures, religions and social groups. It can conceal intellectual ability, affect educational choices and achievement, result in impaired communication skills and it frequently becomes a focus for teasing and bullying. In severe cases, it may significantly affect a young person's ability to achieve their potential and to make a full contribution to society as an adult.

ASC was the inspiration of the late Travers Reid, a successful businessman and a person who stammered, who was determined to help children who stammer throughout the UK. Travers founded the Charity, along with the late Dr Lena Rustin, an inspirational speech and language therapist. Following his appearance in *A Fish Called Wanda*, Michael became Vice President of the Charity and opened the Michael Palin Centre in 1993.

At the core of the Michael Palin Centre's work is the specialist assessment service for any child or young person in the UK, aged 2-18, who stammers. Both parents attend with their child where possible, so that the stammering problem can be fully assessed in the context of each individual family. Families are seen by two specialist therapists who spend a morning or afternoon with the child and their parents during which they can identify and fully understand the factors underlying the child's stammer. The assessment has been developed and refined over the last 30 years, and more recently has evolved to be able to offer the service online, ensuring that we could continue delivering our service through these difficult times. It is the cornerstone of each child's subsequent therapy and greatly increases the likelihood of a successful outcome.

As well as supporting specialist assessments and therapy, the Charity also funds training of speech and language therapists and a programme of research. The training increases the understanding, skills and confidence of speech and language therapists to be able to work with children who stammer. The research programme aims to provide evidence of the efficacy of the therapy as well as to develop

understanding of the nature of stammering and we are funding a PhD looking at stammering and mental health.

Our Youth Panel is made up of young people who stammer and are keen to support the charity. They meet regularly as a group to work together on awareness raising projects and annually with the board to help shape our strategy. They have recently launched an online game which celebrates historic figures who stammered and regularly act as media spokespeople for the charity.

We have a group of 50 'Stambassadors' – adults, in successful careers, who stammer. These people have all filmed videos talking about their careers and their tips for success. They help to show young people who stammer that anything is possible and that their stammers need not hold them back. Last year we ran a careers evening with our 'Stambassadors' and we hope to develop a mentoring programme in the coming years.
